## Introduction

This is a place for learning experiences, located in Adochi, where the yellowtail cultivation industry was born.

When you feed the hamachi, you will see the large fish enthusiastically and powerfully devouring the feed. If you want to try fishing sea bream, the staff will prepare the fishing rod for you, so even if this is your first time fishing you can have a relaxed and enjoyable experience.

There is also a corner where you can play fishing games, and The Marrecco, a miniature submarine. The children love this spot. On the second floor, there is an exhibition explaining the yellow tail cultivation industry.

You can do the popular Fish Hook experience, ocean fishing for released fish. The restaurant, where you can enjoy sashimi packed with ocean freshness, and the rest area and souvenir shop, are also recommended.
