This park has a wonderful view of the Seto Ohashi Bridge

Introduction

The Seto Ohashi bridge is the worlds largest automobile-train combined bridge, and the park is the renovated land of the Memorial Exposition. You can see all the aspects of this massive construction project in the Seto Ohashi Kinenkan.

In this expansive space there are large-scale play structures and grass-covered lawns, in addition to the Mizuno-Kairo (Water Road), which is a fountain that takes the shape of a bridge. There is also a sporting arena and target bird golf course, making this spot popular with sports fans as well.

Inside the park there is a large stone carving that immediately catches the eye – the ‘Onibyobu’ (Ogre’s Folding Wall) is a work of the world-famous sculptor Nagare Masayuki. The tunnel ‘Kuguridaki’ (Passing Through Waterfall), has a breadth of 50 meters, and you can actually pass through the waterfall to the inside. Directly adjacent is the Kagawa Provincial Higashiyama Kaii Setouchi Art Museum. Here is the 108 meter high Seto Ohashi Tower, where you can look over the Seto Inland Sea, among other attractions.
