(Ayagawa-cho Udon Hall Website)

## Facility Introduction

On Route 32 there is a raised area along Takinomiya Park, well-known for its cherry blossoms and chosen as one of the 100 Sanuki Views. There is a rest area and information center.

Takinomiya is said to be the place where udon was first created. Inside the Udon Hall way station you will find people making udon and a restaurant where you can taste freshly made udon. There are other unique udon creations to try, such as Sanuki Udon Ice Cream, Sanuki Miso Redbean Ice Cream and Udon de Gratin.

At the 'Udon Classroom' you can learn about udon making. Make reservations at least three days in advance. From December to June you can pick strawberries at the strawberry farm. There are other hands-on activities to do here as well.

Local products are on sale, as well as vegetables, cheese and plenty of special souvenirs, making this a popular spot with visitors.

## Map Info

Lat 34.249767 Lon 133.917379

The location can be checked on a map online by entering the lat-lon coordinates into a smart phone connected to the Internet.
